

Tech Council Presents Navigator Awards

The Innovation Valley Technology Council recognized five area companies for forging the path of technology excellence at its third annual Navigator Awards luncheon during TechX2007 on Oct 23 at the Knoxville Marriott.

The awards celebrate the successes of local companies and encourage entrepreneurship and expansion in the Innovation Valley. They were presented as part of the day-long TechX2007, a comprehensive and educationally-focused event offering a hands-on opportunity to learn about the newest and most innovative technology solutions available from vendors and users.
